APPENDIX

Changes to Specification:

The following is a marked-up version of the amended paragraph:

[0001] In the simple logical representation outlined above, referring to the exemplary multimodal utterance outlined above with respect to Fig. 5, the recognized word "e-mail" causes the predicate "e-mail ([" to be added to the semantics tape. Similarly, the recognized word "person" causes the predicate "person (" to be written on the semantics tape. The e-mail predicate and the list internal to the e-mail predicate are closed when the rule "S$\rightarrow$V NP~~MP~~ ε:ε :])", as shown in Fig. 6, applies.
